Marie Skłodowska-Curie Post-doc Positions in Germany

“Expression of Interest” for hosting Fellows

This template should be used by institutions interested in hosting post-doctoral fellows within the Marie Skłodowska-Curie Individual Fellowship programme. Host institutions should be located in Germany.

1. **Valid for the following MSCA-IF Calls**:  
   - 2019
   - 2020

2. **Interested host institution**:  
   - TU Chemnitz
   - Name of EU liaison officer (EU-Referent/in), if applicable:

3. **Institute/Department**:  
   - Technische Universität Chemnitz  
   - Faculty of Electrical Engineering and Information Technology  
   - Chair of Digital Signal Processing and Circuit Technology  
   - Prof. Dr.-Ing. Gangolf Hirtz
   - Website (Hyperlink): https://www.tu-chemnitz.de/etit/dst/professur/index.php.en

4. **Contact person (name and e-mail address)**:  
   - Roman Seidel
   - roman.seidel@etit.tu-chemnitz.de

---

1 MSCA Individual Fellowships are selected on the basis of annual calls for proposals. Forthcoming and open calls for proposals can be found on the [Participant Portal](https://ec.europa.eu/programmes/horizon2020) of the European Commission under “Funding Opportunities” and “Calls/H2020”.
### 5. Project idea/position (scientific requirements, topic, discipline):

**Rough outline of idea/position:**

All European countries are facing the problem of a steadily ageing society. This trend is jointly connected with a higher demand for technical assistance systems, which can support elderly people in their daily living. In order to monitor the health status of a person, the determination of its behaviour is a central element. Conventional systems with body-carried devices are uncomfortable for the person who wears such a system. In contrast to that, contact-less optical methods based on image processing do not share this problem.

One of the main goal of this work is a consistent, time-dependent fusion of sensor data of an elderly people in an given indoor environment. The connection with related research fields is essential.

You should bring the following requirements:

- Master's degree in computer science, electrical engineering, biomedical engineering or a close related discipline
- Good knowledge in the fields of computer vision and image processing
- Knowledge in the field machine learning advantageous
- Experience in at least one of a programming language (e.g. C++, Python, Matlab)
- Excellent analysis skills and an analytical mind-set, as well as excellent communication skills, including written
- An ability to work independently and as a member of a research team
- Ability to review and engage with interdisciplinary studies
- English language proficiency. Basic knowledge of German advantageous

6. **Deadline²** for considering interests by post-doctoral applicants:

| 15.06.2019 |

² Please consider that the preparation of a Marie Skłodowska-Curie proposal requires some time. Fellow and supervisor have to agree on a project and training opportunities for the fellow.
