Title

2021-06 Consultant (m/f/d) for third-party acquisition and research transfer

Institution

The Leibniz Institute for Farm Animal Biology (FBN) based in Dummerstorf near Rostock (Germany) is a foundation under public law. Assignment of the institute with about 300 employees is basic and applied research in the field of the biology of agriculturally important farm animal species.

Position

The Unit of science organization and public relations seeks a highly motivated

Consultant (m/f/d) for third-party acquisition and research transfer

for an initial period of 2 years with the option of a permanent contract. The salary is according to Tarifvertrag der Länder (TV-L) up to pay grade 13.

Reference number: 2021-06

An interesting and challenging job at the interface between research and science management within an inter-national and interdisciplinary research institution is waiting for you. The FBN offers an interesting and versatile work environment in the public service. Agreements for connecting family and work are existing. Participation in occupational retirement provision (VBL) is guaranteed. The Institute is committed to increase the proportion of women in areas where they are underrepresented. Thus suitably qualified women are invited to apply. Handicapped applicants will be given preference in the case of equal qualification and capability. We explicitly encourage international applications.

Responsibilities

Task Description:

• identifying calls for proposals in funding programmes to provide targeted support for the FBN research programme - with a focus on the EU's Framework Program for Research and Innovation "Horizon Europe"
• supporting FBN scientists in the preparation of consortium initiatives
• support in the application processes, especially for general non-scientific matters
• participation in the implementation of the "Strategy for Knowledge and Technology Transfer at the FBN" for cooperation with national and international partners from academia and industry
• Collaboration in the newly founded Science Organisation and Service Team

Requirements

Requirements:
• good knowledge of European Union research programs and their promotion mechanisms
• degree (master or equivalent) in biology, agricultural science or related fields
• excellent English skills in speaking and writing
• good knowledge in the application of MS-Office products as well as image processing and graphic programs
• Willingness to travel
• desirable is committed and reliable personality with an organizational background who has already gained experience in the acquisition and management of EU projects
• Networking with national and/or international EU project managers and stakeholders

Application procedure (deadline etc.)

For detailed information contact Prof. Dr. K. Wimmers (wimmers@fbn.dumerstorf.de, Tel. 038208/68 600).

Application and travel expenses in the context of the application cannot be reimbursed. By submitting your application, you consent to the processing of your personal data for the purpose of the application procedure.

Contact

We look forward to receiving your application. Please send them as one pdf file (preferred) including the job number to:
