**Title**

3 Research Group Leaders in the areas of

Ageing, Gene Regulation and/or Genome Stability

**Institution**

IMB (www.imb.de) is a research centre on the campus of Mainz University, Germany. It is generously funded by the Boehringer Ingelheim Foundation and the state of Rhineland-Palatinate, which jointly support IMB with over €250 million between 2010-2027. Our research focuses on the biology of the cell nucleus and ranges from the molecular level to organismic, systems and computational approaches. Researchers at IMB are supported by strong core facilities that offer state-of-the-art services in bioinformatics, cytometry, genomics, histology & microscopy, proteomics and protein production.

**Position**

We seek outstanding, interactive candidates with a strong publication record and an innovative research profile in the following three areas:

AGEING, including genomic instability, epigenetic alterations & ageing clocks, RNA biology, proteostasis, senescence, stem cell exhaustion, metabolic & mitochondrial dysfunction or microbiome-ageing interactions.

GENE REGULATION, including epigenetics, RNA biology, chromatin biology, epitranscriptomics or disordered proteins & phase separation.

GENOME STABILITY, including DNA damage signalling, replication and repair, endogenous lesions, R-loops or chromosome stability.

Candidates working on computational approaches to the above areas are also welcome. As a successful candidate, you will have opportunities to network with, in particular, the following research initiatives in Mainz: the CRC on “Regulation of DNA repair and genome stability” (www.sfb1361.de), the recently established Centre for Healthy Ageing (www.cha-mainz.de), the profile area ReALity (Resilience, Adaptation & Longevity; https://reality.uni-mainz.de) and the RTG GenEvo on “Gene regulation in evolution” (www.genevo-rtg.de).
Positions are initially offered for 5 years and can be extended to up to 10 years following positive evaluation. The group leader package includes an attractive salary and annual budget. There are no teaching obligations, but teaching opportunities are available at Mainz University.

Responsibilities

Requirements

Application procedure (deadline etc.) To apply, please send a single PDF containing your cover letter, CV and a concise description of your research interests and future research plans to hr@imb-mainz.de, quoting the reference CNGL07 for “Ageing”, CNGL08 for “Gene Regulation” and CNGL09 for “Genome Stability”. Please also arrange for two letters of recommendation to be sent to hr@imb-mainz.de. Questions can be addressed to Christof Niehrs (c.niehrs@imb.de). The deadline for applications is 31 January 2022. Interviews will take place online between 21 March and 1 April 2022.

Declaration of Consent and Data Protection
By sending us your application, you consent to us saving your personal data to carry out the selection process. You can find more information on our data protection and retention periods at www.imb.de/jobs/data-protection.
