Title

IT system administrator (m/f/d)
Main focus Windows Server / VMware

Institution

The Leibniz Institute for Agricultural Engineering and Bioeconomy is a pioneer and a driver of bioeconomy research. We create the scientific foundation to transform agricultural, food, industrial and energy systems into a comprehensive bio-based circular economy. We develop and integrate techniques, processes and management strategies, effectively converging technologies to intelligently crosslink highly diverse bioeconomic production systems and to control them in a knowledge-based, adaptive and largely automated manner. We conduct research in dialogue with society - knowledge-motivated and application-inspired.

The Central IT working group, which currently has five employees, looks after the central IT infrastructure and provides IT services for science and administration.

Position

To strengthen the Central IT working group, we are looking for a IT system administrator (m/f/d)
Main focus Windows Server / VMware

The salary of this full-time position (40 h per week) (indefinite duration) is based on your qualification and professional experience according to TV-L. If the relevant requirements are met, an IT specialist allowance may be granted.

Responsibilities

As a team member of Central IT, you will be involved in the provision, continuous monitoring and forward-looking expansion of a portfolio of IT services.
- Administration of the VMware system with virtual clients and servers
- Administration of the Windows server and Active Directory
- Administration of the Exchange server
- Storage systems
- Maintenance of the standardized workplace environment, Software distribution to virtual and physical Windows clients, user-based application portfolio
Requirements

- Successfully completed studies with a focus on computer science (Bachelor, Master, Diploma (FH)) or successfully completed training as an IT specialist for system integration, alternatively verifiable comparable knowledge and professional experience
- Very good knowledge in the area of Microsoft Windows - Client and Server
- Very good knowledge of virtualization with VMware
- Good knowledge in the area of networks
- Knowledge of Open Source (administration and customization)
- Good written and spoken German and English
- Knowledge in the areas of firewall, security, network desirable
- Willingness to familiarize yourself intensively with IT systems and to undergo further training
- Distinct analytical, technical and service-oriented way of working in a team
- Willingness to cooperate, reliability, flexibility, resilience, personal commitment and ability to work independently

Application procedure (deadline etc.)

We offer

- A challenging and interesting job in the service area for science
- A well-founded familiarization within the task area as well as further education
- Family-friendly working conditions that promote the compatibility of work and family life

If you want to help shape the ongoing, comprehensive digitization of agriculture, you are exactly right with us. In the administration of the IT systems for science and administration, you can expect a varied and independent job as a system administrator as well as an attractive working environment and a highly motivated team. You can look forward to flexible working hours (flextime, mobile working) and high job security. Our institute is located on the edge of a picturesque park-like landscape and can also be easily reached by public transport or by bicycle.

If you would like to contribute your professional competence to our interdisciplinary research, please apply in English or German by the following deadline 23 July 2021 using ATB’s online application form for the job advertisement, code 2021-Verw-4, at https://www.atb-potsdam.de/en/career/vacancies. Applications received after the application deadline cannot be considered.

Equality of opportunity is part of our personnel policy. Disabled applicants with adequate qualification will be preferentially considered.

By submitting an application, you agree that your job application documents will be stored for a period of six months, even in the case of an unsuccessful application. Further information on the
processing, storage and protection of your personal data can be found at https://www.atb-potsdam.de/en/services/data-protection-declaration-for-the-application-process.
