

Marie Skłodowska-Curie PostDoc Positions in Germany

“Expression of Interest” for hosting Fellows

This template should be used by institutions interested in hosting postdoctoral fellows within the Marie Skłodowska-Curie Individual Fellowship programme. Host institutions should be located in Germany.

1. Valid for the following MSCA-IF Calls¹:

<input type="checkbox"/> 2018	<input checked="" type="checkbox"/> 2019	<input checked="" type="checkbox"/> 2020
-------------------------------	--	--

2. Interested host institution:

Leibniz Institute on Aging – Fritz-Lipmann-Institute (FLI)

Medical progress has contributed to survive many life-threatening conditions. Staying healthy while aging is most people’s wish when envisaging their individual future. Nowadays, more and more societies are faced with demographic changes towards a larger proportion of the elderly. And while this advance is in part most welcome, it also poses a challenge to whole society with the occurrence of multiple aging-associated pathologies. The FLI is the first German research institute to focus on the molecular biomedical foundation of the aging process, thus providing a scientific foundation for healthy aging.

Our scientists are contributing to stem cell aging, organ maintenance, the accumulation of cellular damage, (epi)genetics, and systems biology of aging. Currently, about 170 researchers from over 30 nations put their ideas on healthy aging into practice. Their vision is supported by all necessary state-of-the-art core facilities and model systems. Embedded in an outstanding network of national and international cooperation the FLI provides everything for the next breakthrough discoveries.

Are you interested to develop your idea at the FLI? Please contact: Mr. Dr. Tobias Sperka (tobias.sperka@leibniz-fli.de)

Website (Hyperlink): <http://www.leibniz-fli.de/>

<https://www.leibniz-fli.de/research/associated-research-groups/>

¹ MSCA Individual Fellowships are selected on the basis of annual calls for proposals. Forthcoming and open calls for proposals can be found on the [Participant Portal](#) of the European Commission under “Funding Opportunities” and “Calls/H2020”.

3. Institute/Department:

The institute consists of 20 research groups and associated research groups. Please visit the individual homepages to get a first impression.

Website (Hyperlink):

<https://www.leibniz-fli.de/research/research-groups/>

<https://www.leibniz-fli.de/research/associated-research-groups/>

4. Contact person (name and e-mail address):

Mr. Dr. Tobias Sperka (tobias.sperka@leibniz-fli.de)

5. Project idea/position (scientific requirements, topic, discipline):

Rough outline of idea/position:

Please seek information on the individual research group's homepages and get into contact with us to develop your project idea. We are looking for highly engaged postdoctoral researchers who wish to contribute to our mission. We offer an exceptional environment to advance your career.

Please tick:

Life Sciences

Natural Sciences

Engineering Sciences

Social Sciences and Humanities

6. Deadline² for considering interests by postdoctoral applicants:

Please get into contact with us 2-3 months prior to the call deadlines.

² Please consider that the preparation of a Marie Skłodowska-Curie proposal requires some time. Fellow and supervisor have to agree on a project and training opportunities for the fellow.
