Executive Summary

The aim of the SME Progress Reports is to monitor the participation of SMEs in the Cooperation Programme within the Seventh Research Framework Programme (FP7). The report analyses the SME participation in Grant Agreements signed by end December 2011.

The Commission is paying special attention to the funding for SMEs under the Cooperation Programme, following the target in the Decision establishing FP7¹. The aim is to ensure that at least 15% of the funding of the programme goes to SMEs.

Focusing on the SME participation in the Thematic Priorities, 2,407 M€ or **15.3%** of the used Cooperation budget, is going to SMEs. (Graph 1)

In 73% of the Grant Agreements at least one SME is involved. 10% of the projects is coordinated by an SME.

For the SME participations in Thematic Research Projects so far, the average EU contribution is 270,000€

In the whole FP7 programme, including Research for the Benefit of SMEs and the Marie-Curie Actions, 13,800 of almost 79,000 of the participations are SMEs, receiving an average EU contribution of 250,000€ The SME participations represent 9,400 individual SMEs out of the 20,100 individual organisations participating in FP7.

So far, the Cooperation Programme has spent in total 50.1% of the budget, amounting 15,750 M€ within the Thematic Priorities. Given the SME targeted elements in the Work Programmes 2012, the budgetary share of SMEs is forecasted to grow from the current 15.3 % to around 16 % of the Cooperation Programme by 2013. This represents 5.2 billion € For the five Specific Programmes of FP7, an extrapolation exercise forecasts the total budget going to SMEs in FP7 to amount to 7 billion € benefiting 17,000 SMEs in ca. 28,400 SME participations. This estimation is based on the average multiple participations by SMEs in FP7. The recurrence rate, being the average number of projects in which an organisation is involved, has increased to an average of 1.6 Grant Agreements per SME - demonstrating a positive trend in the interest of SMEs in FP7 - and might increase further.

During the last months of 2011, there has been a significant increase in the budget share going to SMEs (Graphs 2 and 3). The SME strengthening measures in the Work Programmes 2011, in particular the ones of the Thematic Priorities HEALTH and KBBE, appear to be effective.

As a specific feature, this report provides a more detailed analysis of the activity sectors of participating SMEs with a comparison among the relevant Specific Programmes. This analysis shows the different nature of the Specific Programmes: R&D performing SMEs have a high share (30%) in the Thematic Priorities of the Cooperation Programme, while in the programme 'Research for the benefit of SMEs', the manufacturing sector is represented in more than 40% of the participations. In the People Programme, namely the Marie-Curie actions 'Industry Academia Partnerships and Pathways' and 'Initial Training Networks', the R&D performing SMEs represent more than 40% of the participations.

This report also looks into the participation of SMEs of Third Countries in FP7. All in all, there are almost 1,200 SME participations of Third Countries in FP7, which corresponds to almost 10% of all the SME participations.

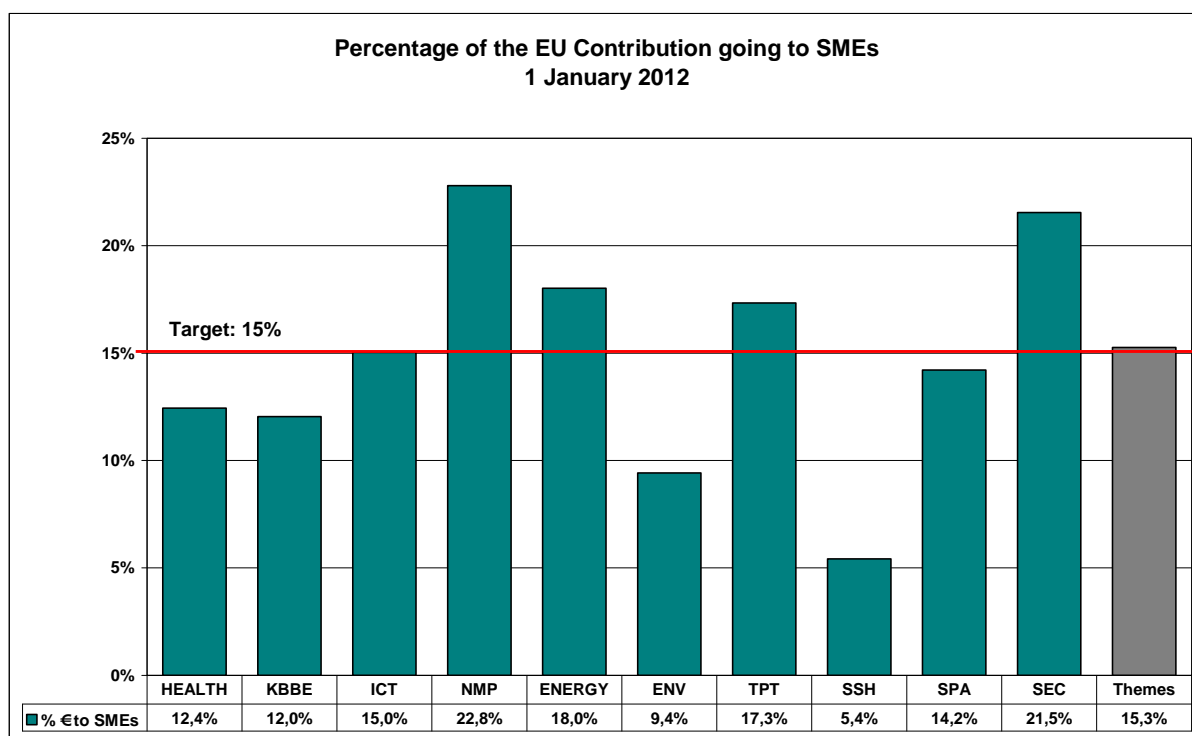

¹ "Decision no 1982/2006/EC of the European Parliament and of the Council of 18 December 2006 concerning the Seventh Framework Programme of the European Community for Research, Technological Development and Demonstration activities (2007-2013)" – Annex1, I. Cooperation

The report analyses the participation of SMEs in each of the ten Thematic Priorities within the Cooperation Programme of FP7. The Themes are listed with their acronyms and description in Table 1.

Table 1: The ten Cooperation Programme Themes in FP7: Acronym and description

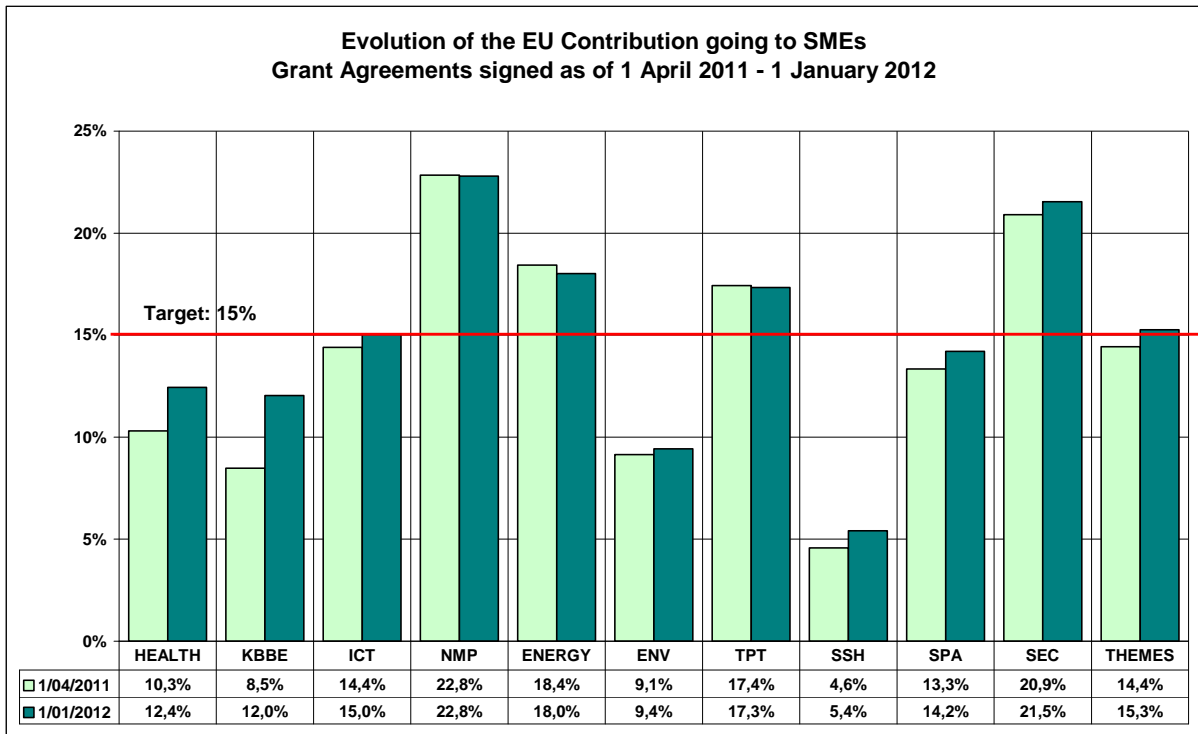

Theme acronym	Theme description
HEALTH	Health Research
KBBE	Food, agriculture, fisheries and biotechnology
ICT	Information and communication technologies
NMP	Nanosciences, nanotechnologies, materials and production technologies
ENERGY	Energy Research
ENV	Environment Research (including climate change)
TPT	Transport Research (including aeronautics)
SSH	Socio-economic Sciences and Humanities Research
SPA	Space Research
SEC	Security Research

EU Contribution going to SMEs, per Theme, versus the 15% target Grant agreements signed during the years 2007 to 2011

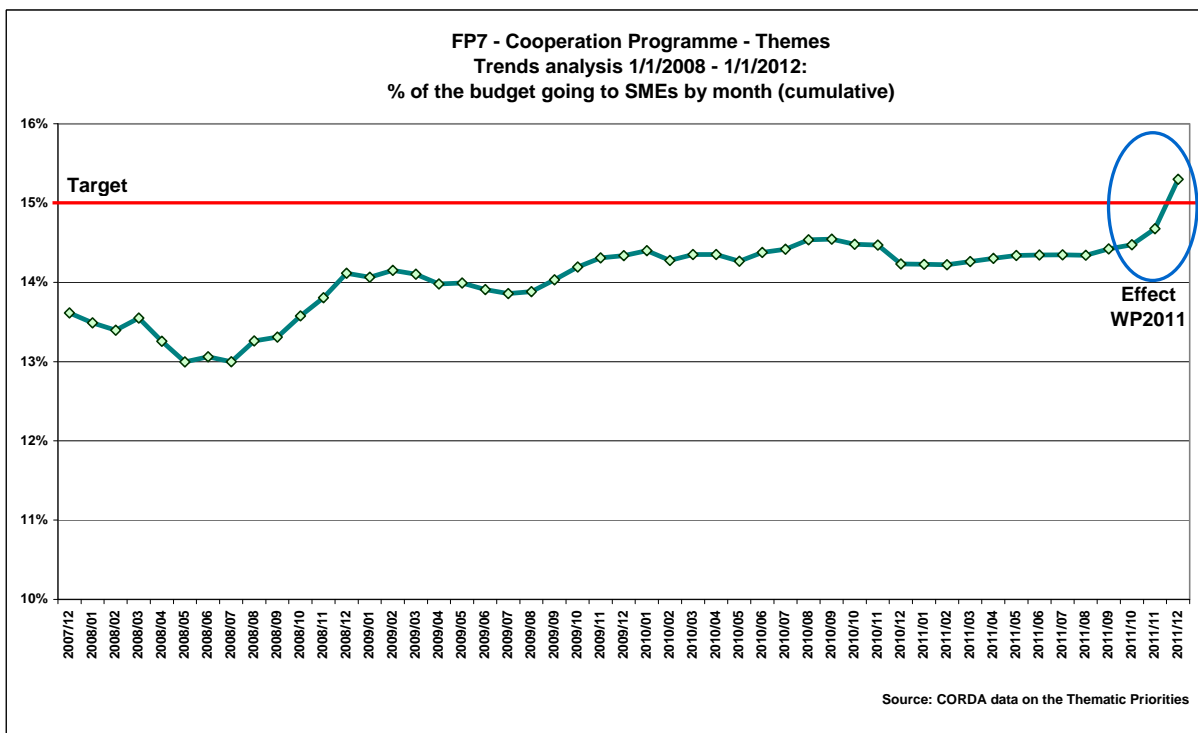

Graph 1: The share of the EU Contribution going to SMEs, for each Theme within the Cooperation Programme (2007-2011)

Evolution of the SME participation in the Thematic Priorities

Graph 2: The evolution of the share of the EU Contribution going to SMEs, for each Theme within the Cooperation Programme, since the previous report

Graph 3: Trends analysis
Evolution of the percentage of the budget going to SMEs over 48 months (cumulative).
Period: January 2008 – December 2012

The effect of the SME targeted measures in WP 2011 is visible

The main justification for the overall increase of the EU contribution in the Thematic Priorities are the efforts done by the Thematic Priorities to include SME targeted measures.

The 2011 Work Programmes (WPs) covered a range of new SME friendly issues for most of the Themes . These include, for instance, SME specific topics, SME specific calls and earmarked budgets for SMEs.

As of the 1st of January 2012, 620 Grant Agreements (GAs) are signed based on calls published in the 2011 Workprogrammes.

These represent

- 20.1% SMEs participations (versus 17% overall)
- 18.7% of the EU contribution goes to SMEs

This is a clear improvement compared to the GAs signed under 2007-2010 WPs, for which the results were

- 16.7% SMEs participations
- 14.4% of the EU contribution went to SMEs

Chapter 1. Key Figures on the SME participation in FP7

Overall overview FP7

The Seventh Framework Programme has five Specific Programmes. The table below summarizes overall and SME related key figures for each of these Specific Programmes.

Table 2: Key figures for the SME participation in the five Specific Programmes of the Seventh Framework Programme for Research (in Grant Agreements signed by 1 January 2012)

Specific Program Description	Signed GAs	Nr of SMEs Participations	Number of all Participations	Nr of Individual Participants	EU Contribution Going to SMEs	EU Contribution to all	Percentage of the budget going to SMEs
SP1-Cooperation (°)	4,700	9,220	51,833	15,128	2,477,073,659	16,294,380,911	15.2% (°)
<i>Thematic Priorities</i>	4,441	8,885	50,530	14,826	2,406,993,953	15,757,255,689	15.3%
<i>Other</i>	259	335	1,303	302	70,079,706	537,125,222	13.0%
SP2-Ideas	2,250	10	2,535	526	9,312,125	3,595,507,727	0.3%
SP3-People	5,929	684	10,711	2576	166,624,561	2,397,302,677	7.0%
SP4-Capacities	1,296	3,825	12,367	6,190	774,126,381	2,499,300,117	31.0%
SP5-Euratom	102	88	1,376	443	13,667,082	243,187,920	5.6%
FP7-OVERALL	14,277	13,827	78,822	20,087 (°°)	3,440,803,807	25,029,679,351	13.7%

Source: *CORDA. Data about Grant Agreements signed before the 1st of January 2012 (extracted 9 January 2012)*

(°) Includes besides the Thematic Priorities also the grants to ESA, the Joint Technology Initiatives (JTIs) and the General Activities such as the CORDIS services, the horizontal ERA-NET scheme, Research organisations in the EU, Strengthened coordination with EUREKA, Scientific and technological cooperation activities carried out in COST, the European Metrology Research Programme.

(°°) 20,087 organisations (individual) participate in FP7 (over the five Specific Programmes): The sum of the individual participations in each of the Specific Programmes is 24,863, but around 4,800 organisations participate in more than one Specific programme.

Note:

This Report on the SME Participation in FP7, focuses mainly on the Thematic Priorities, i.e. the Cooperation Programme, excluding the grant to ESA, the Joint Technology Initiatives (JTIs) and the General Activities such as the CORDIS services, the horizontal ERA-NET scheme, Research organisations in the EU, Strengthened coordination with EUREKA, Scientific and technological cooperation activities carried out in COST, the European Metrology Research Programme.

The participation of SMEs in the Joint Technology Initiatives (JTI's) were analysed in the previous SME Progress Report, published in June 2011.

Chapter 2. SME Participation in the Cooperation Programme (Thematic Priorities)

Core data per Theme

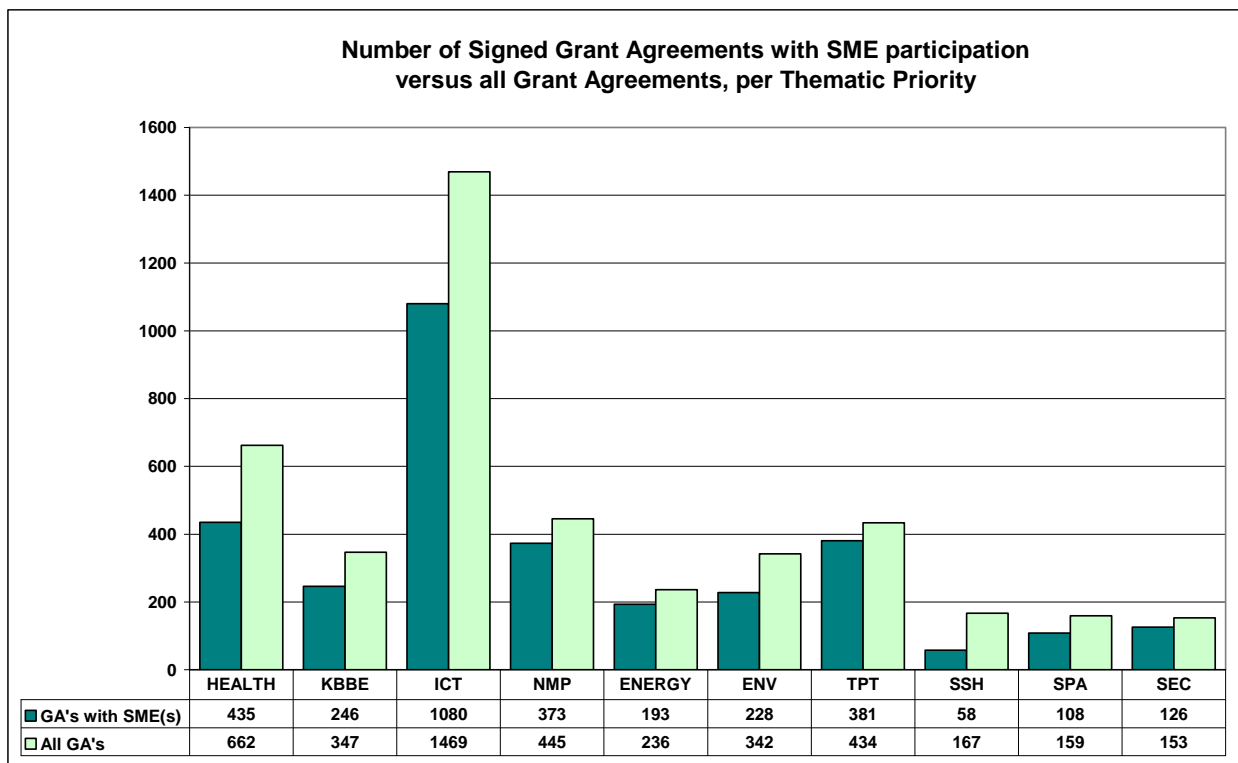

Table 3: Key data on SME participation in Grant Agreements for the ten Thematic Priorities

Theme	Participation				EU contribution						
	Signed GAS	SMEs Participations	Number of all Participations	% of SME Participations	EU Contribution going to SMEs	EU Contribution to all	Average EU Contribution per SME participation	Average EU Contribution per participant	% of EU Contribution going to SMEs	Average Size of Consortia	Average Nr of SMEs
HEALTH	662	998	7,469	13.4%	376,515,877	3,009,175,660	377,270	402,889	12.5%	11.3	1.5

SME Participations per Theme

Graph 6: SME participations per Theme (1 January 2012)

SME Participations per Theme in Percentage

Graph 7: Participations per Theme – SMEs versus all – in percentage (1 January 2012)

Recurrence rate of SMEs in different projects

The recurrence rate of an organisation is the average number of projects in which an organisation participates.

Recurrence within the Thematic Programmes (47,000 participations)

The Thematic Programmes have about

- 50,500 participations
- 14,800 organisations (individual participants)
- 8,900 SME participations
- 5,700 individual SMEs

SMEs

SMEs often participate in more than one research project. On average, within the same Theme, an SME participates in 1.4 projects.

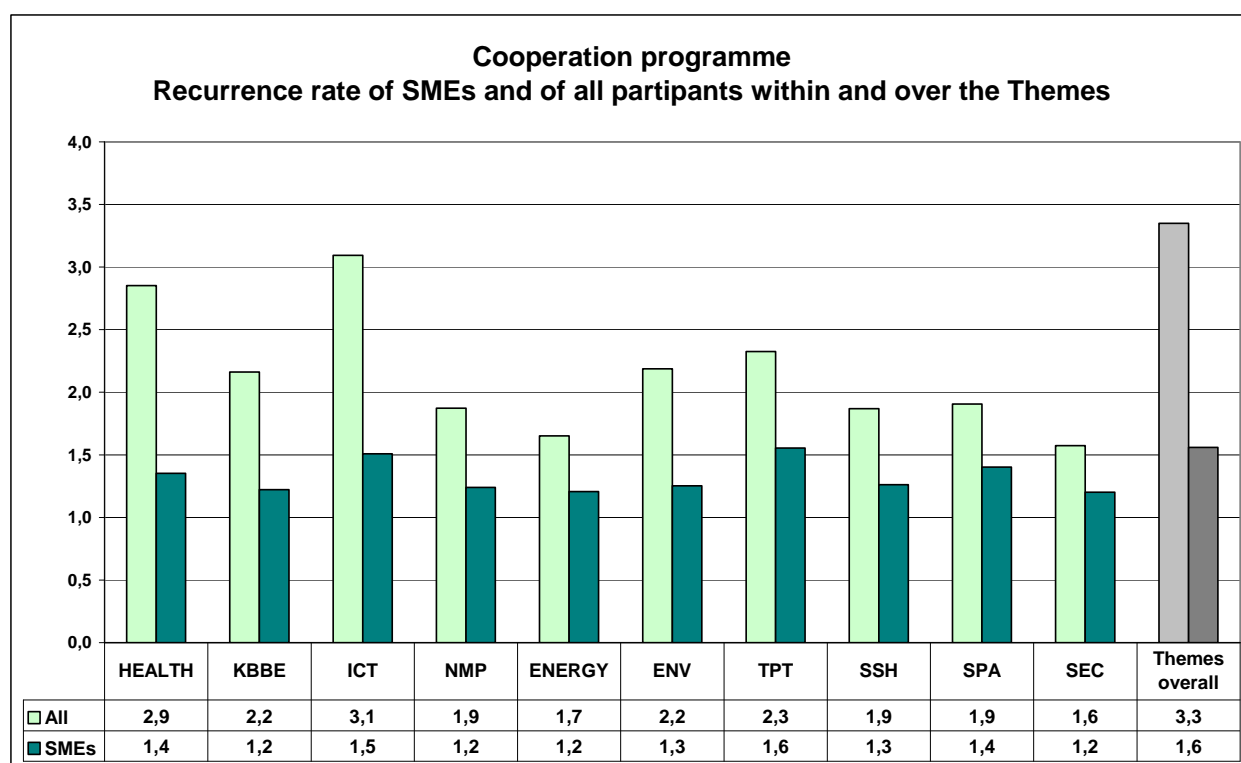

There are also SMEs which participate in projects of different Themes.

Overall, the global 'recurrence rate' of SMEs in the Cooperation Programme (over the ten Thematic Priorities) is 1.6. This means that, on average, an SME participates in 1.6 projects.

All organisations

On average an organisation involved in the Cooperation Programme participates in 2.3 projects.

Organisations regularly are active in more than one Thematic Priority (e.g. universities), by which on average a participating organisation is involved 3.3 Grant Agreements within the Cooperation programme.

Graph 8: Recurrence rate of SMEs and all participants within and over the Themes (Cooperation Programme)

Recurrence within all Specific Programmes of FP7 (78,800 participations)

The five Specific Programmes have about

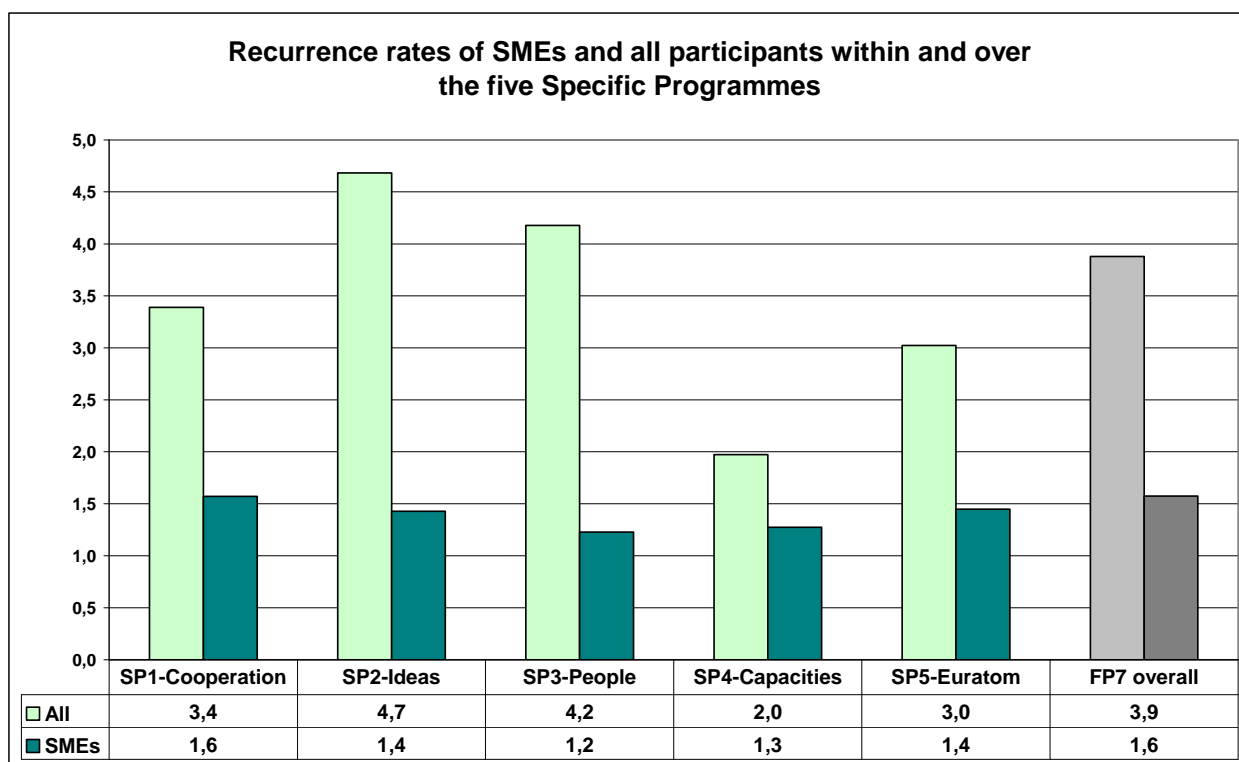

- 78,800 participations
- 20,100 organisations (individual participants)
- 13,800 SME participations
- 9,400 individual SMEs

SMEs

On average, SMEs involved in FP7 have a participation in 1.6 Grant Agreements.

All organisations

Over the whole of FP7, an organisation participates on average in 3.9 Grant Agreements.

Graph 9: Recurrence rate of SMEs and all participants within and over the FP7 Specific Programmes

SMEs use 9% of the budget for demonstration activities

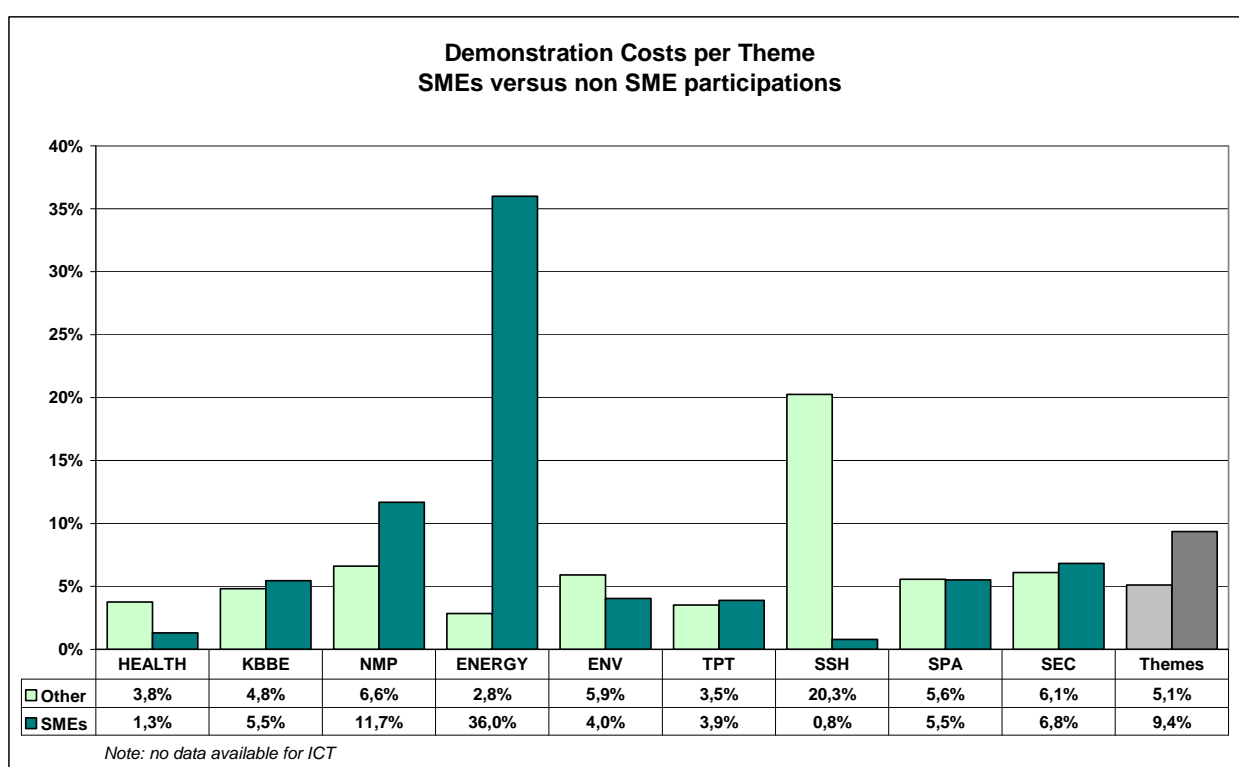

Demonstration activities within Thematic research projects are designed to prove the viability of new technologies that offer a potential economic advantage, but cannot be commercialised directly (e.g. testing of product-like prototypes).

An indication of demonstration activities is given by the demonstration costs in the Grant Agreements.

For the projects signed so far, there is a significant higher number of demonstration activities performed by the SME partners than other participants.

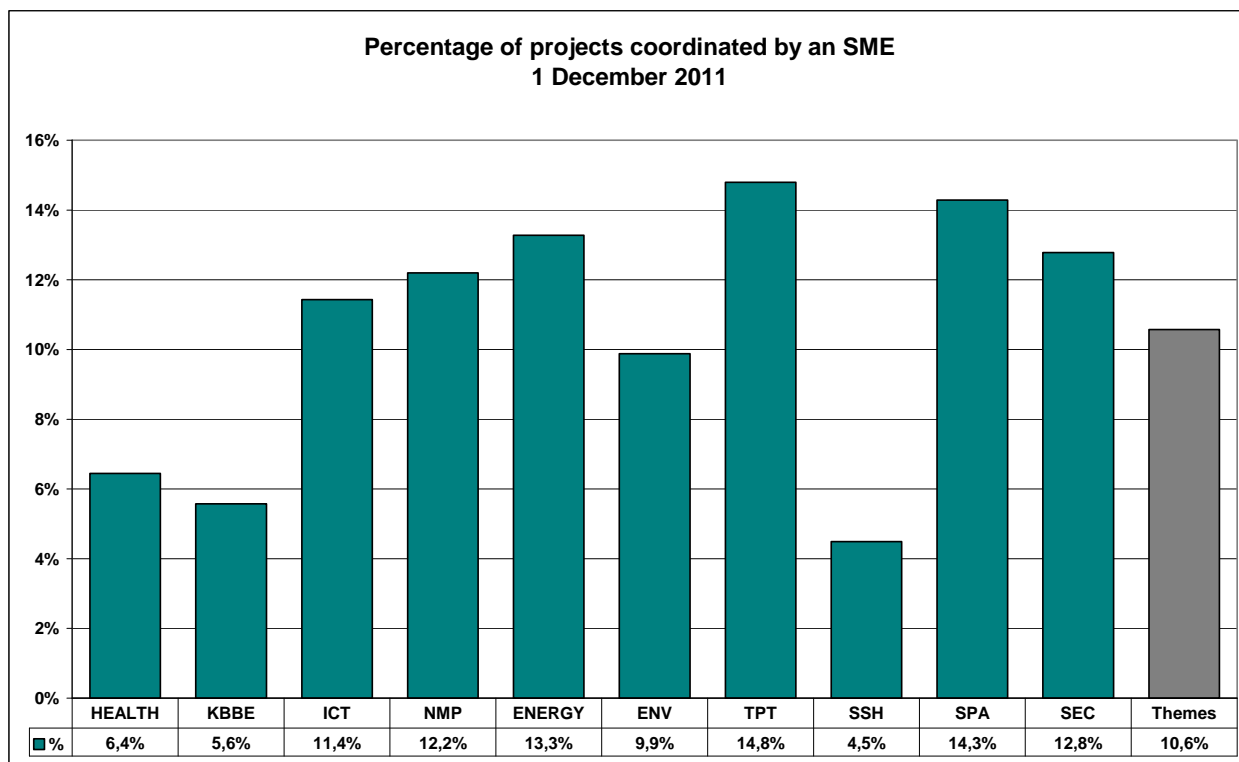

9.4% of the SME costs are allocated to demonstration activities, while this is only 5.1% for participants which are not SMEs. Especially in ENERGY and NMP there is a high share of demonstration costs (see Graph 10).

The overall expenditure for demonstration activities in the Thematic Priorities of the Cooperation Programme is 6.1%.

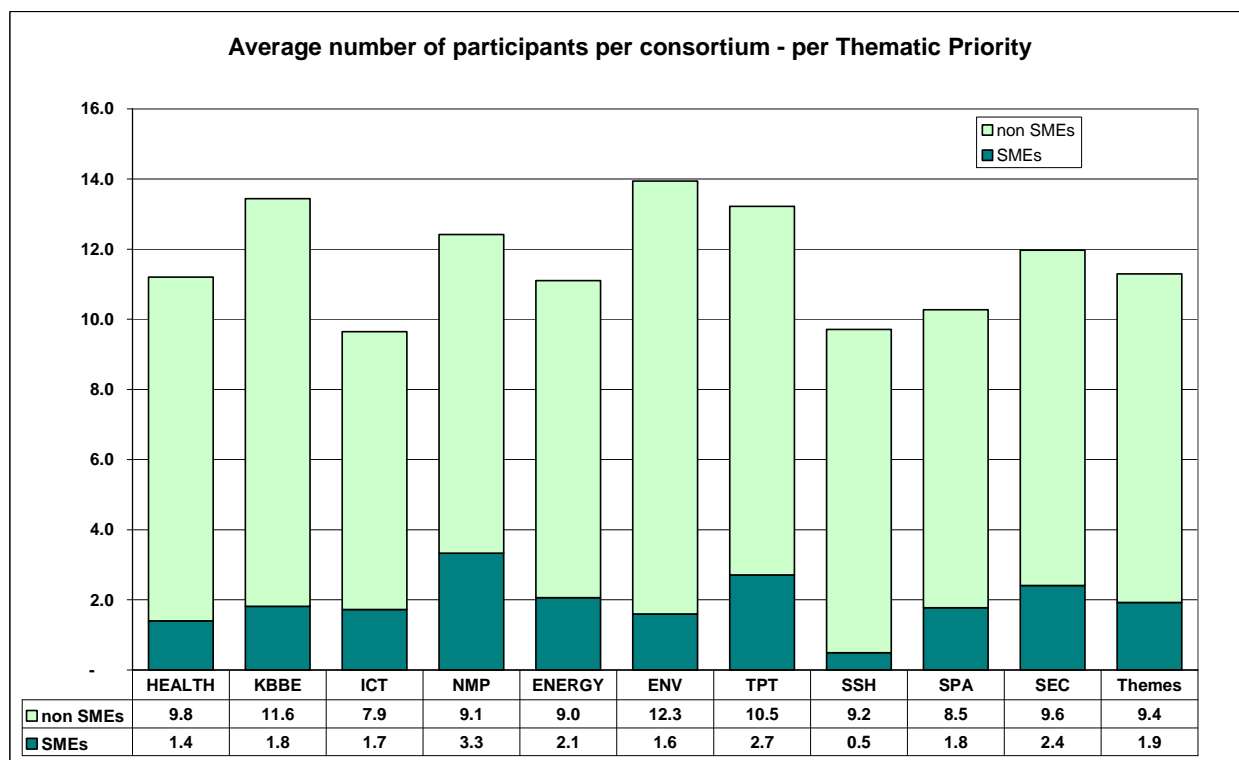

Graph 10: Share of demonstration activities' cost per Theme – SMEs versus non SMEs

10% of the FP7 projects are coordinated by an SME

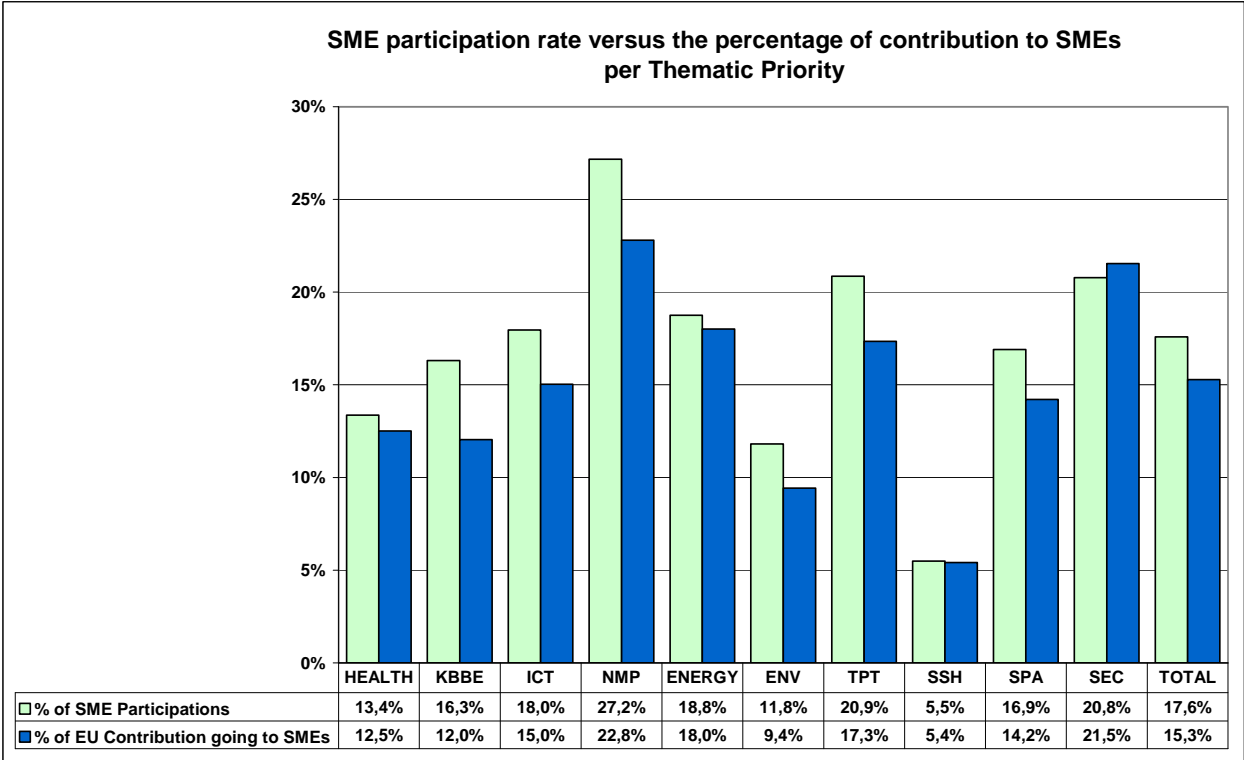

Graph 11: SME Coordinators per Theme in percentage of the projects

Consortia in average have 11 participants, including 2 SMEs

Graph 12: Average number of participants per project per Theme – SMEs versus all

Comparison of the SME participation rate and the EU contribution rate to SMEs

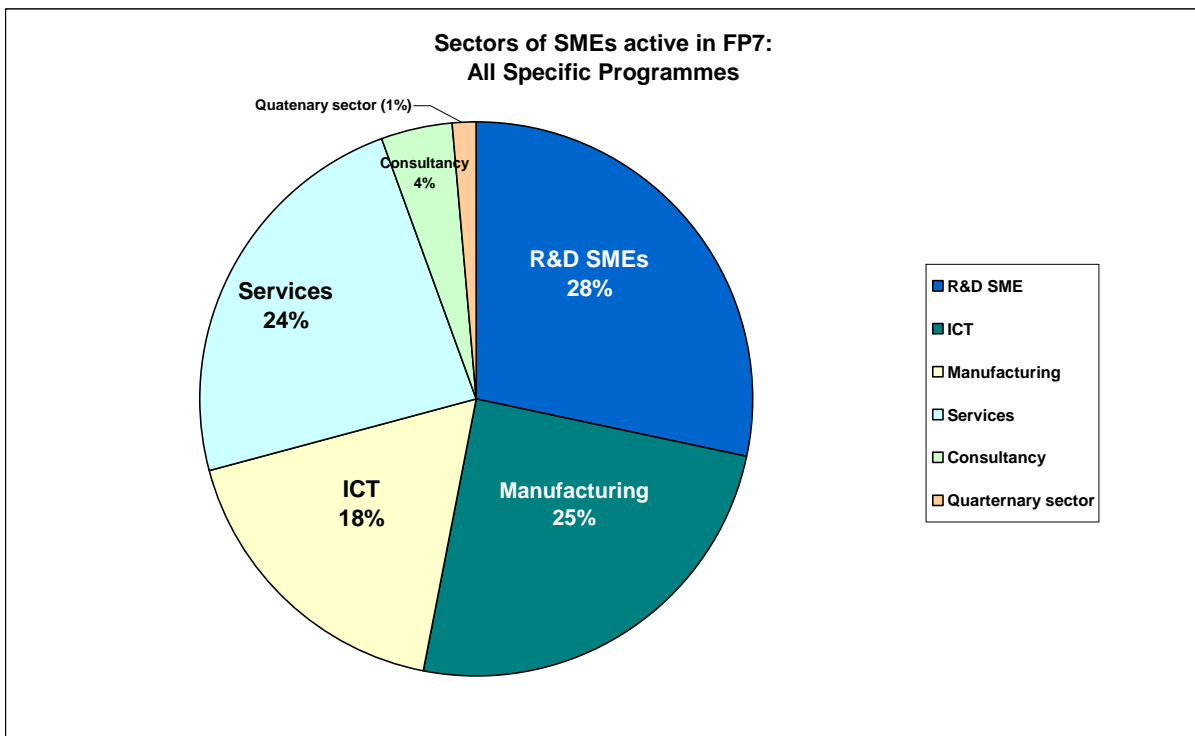

Graph 13: SME Participation rate versus EU Contribution rate to SMEs (1 January 2012)

Chapter 3. Profile of the participating SMEs

For almost 7,000 SME participations in FP7 a NACE code is available. The 51 NACE codes used were grouped in six main sectors of activity:

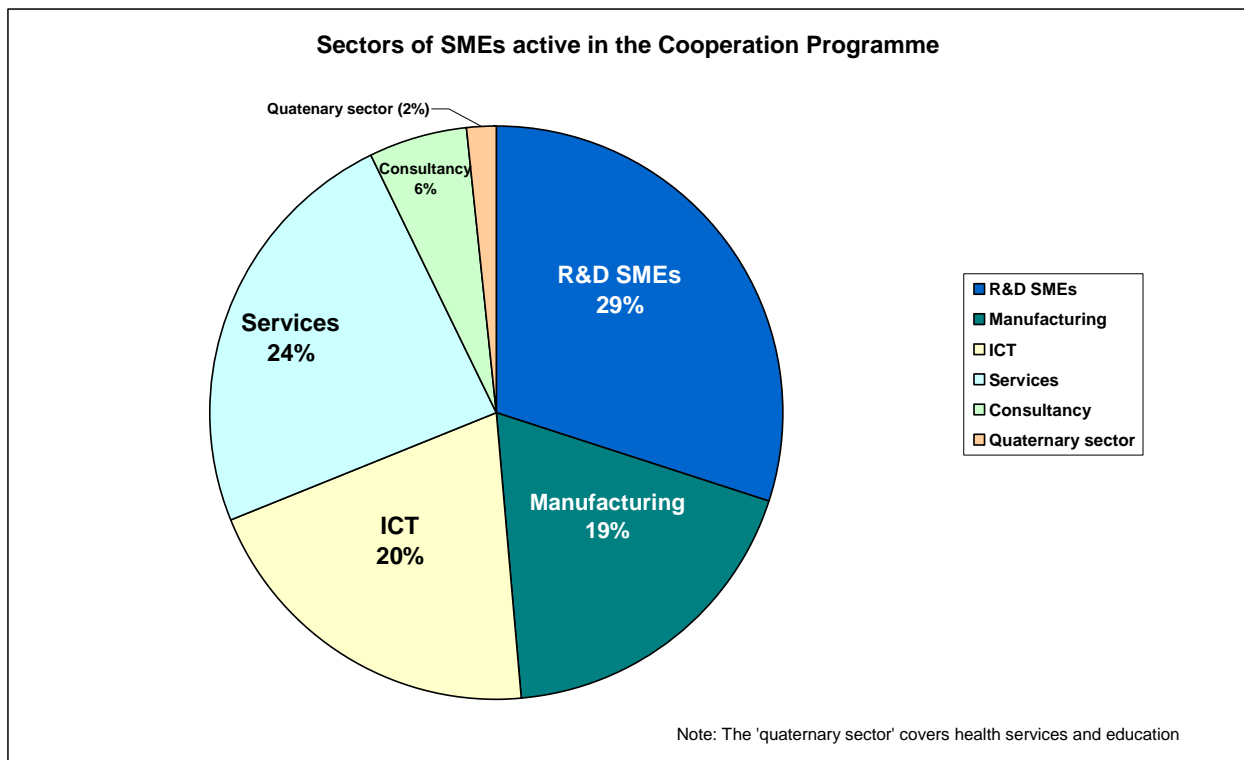

1. **R&D SMEs:** the SMEs with codes 73.1 or 73.2 (meaning 'Research and experimental development on ...')
2. **Manufacturing sector**
3. **ICT sector:** computer and related activities, including telecommunication
4. **Service sector,** covering all service activities except consultancy services. This sector covers wholesale and retail trade; repair of motor vehicles, motorcycles, ships and personal and household goods; electricity, gas and water supply; transport, storage and communication, real estate and renting activities.
5. **Consultancy SMEs**
6. **Quaternary sector:** covers education and health service SMEs

Graph 14: Sectors of SMEs represented in the FP7 (all Specific Programmes)

Focus on the SME activity profiles within the Cooperation Programme

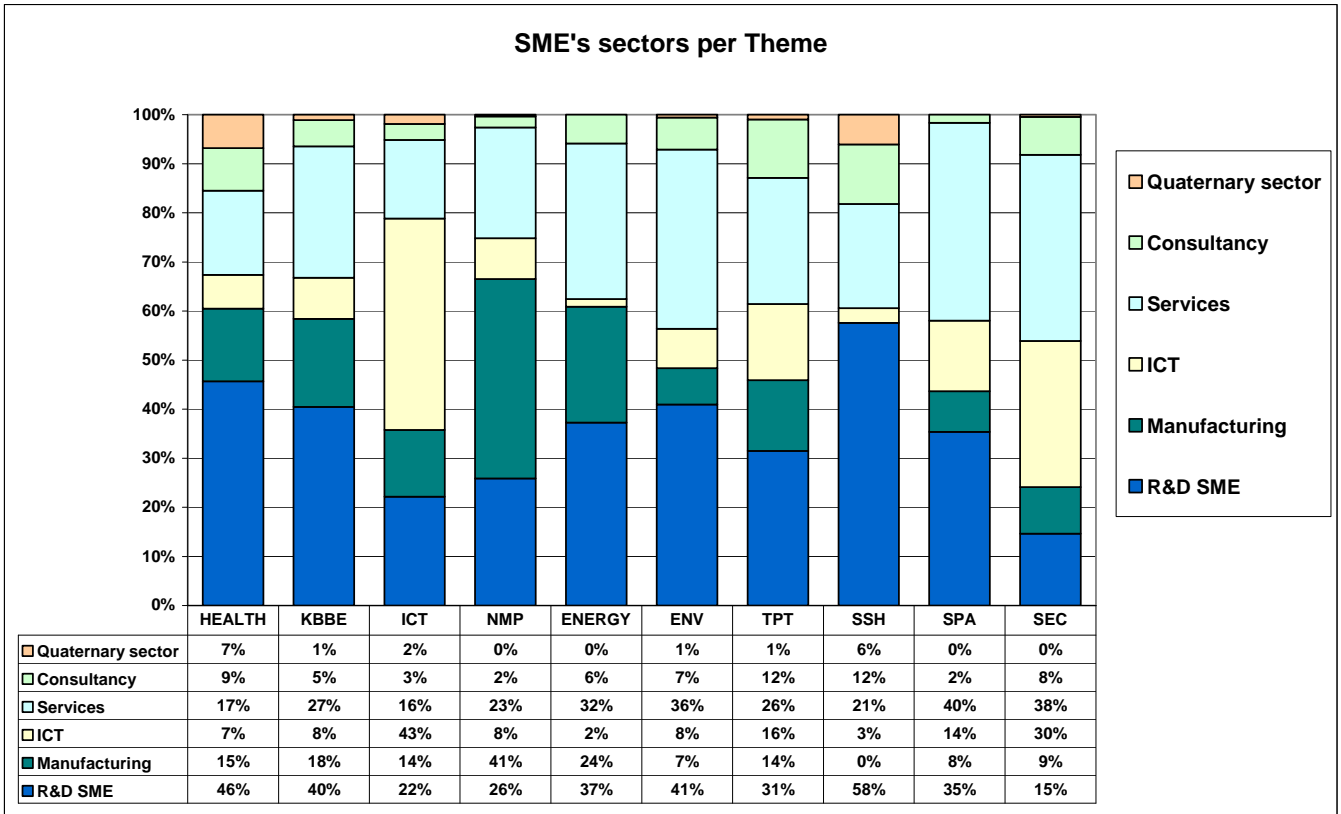

Within the Thematic Priorities, the biggest group is the one of research and development SMEs. Manufacturing, ICT and Services each have a quite equal share.

Graph 15: Sectors of SMEs represented in the Cooperation Programme

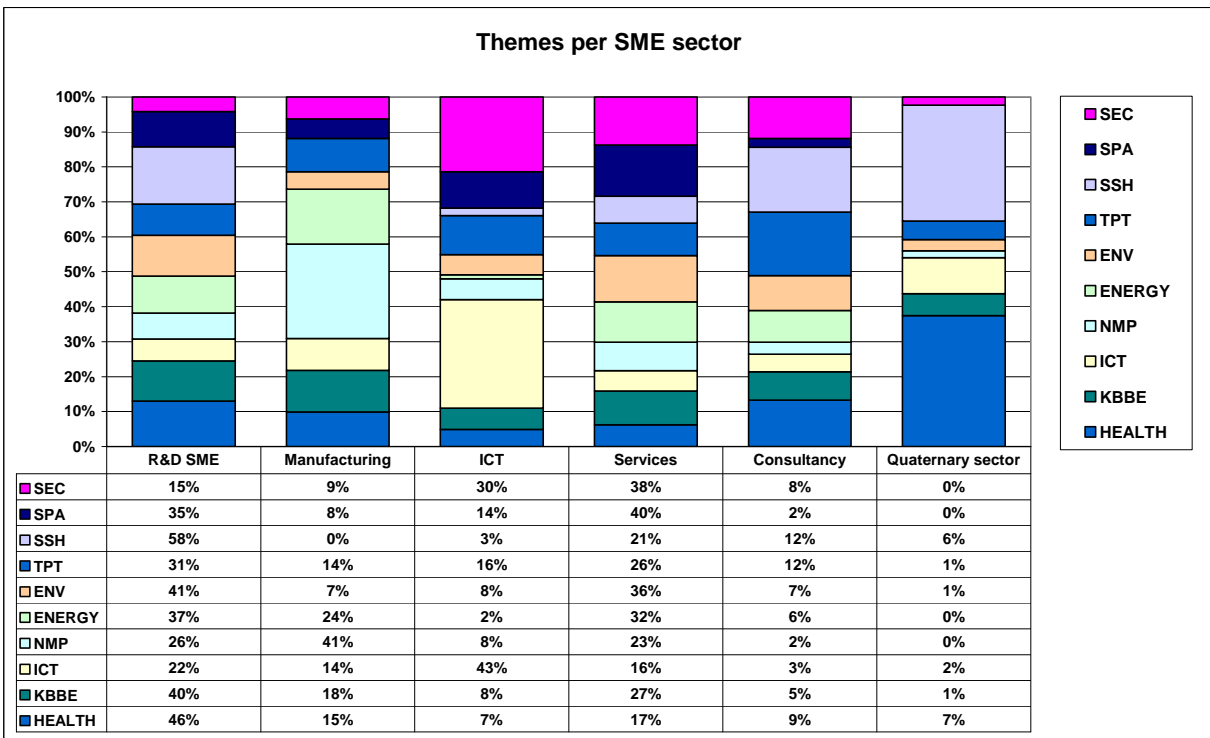

The division of participations from different sectors was analysed versus the Thematic Priorities.

- The **R&D sector**, counting for 29% of all SME participations within the ten Thematic Priorities, is active in each of the 10 Thematic Priorities. However, the R&D SMEs are especially present (between 30 and 60% of the participations) in the Themes SSH, HEALTH, KBBE, ENERGY, SPA and TPT
- The **Manufacturing sector** is – not surprisingly – highly active in the NMP theme (41%). However, this sector is active in all Themes with the exception of SSH, with a total share of 19% of the participations over the ten Themes.
- Besides a very high share of SMEs in the ICT Theme (43%), the **ICT sector** also has a good presence in the Security Theme (30%). Only in the SSH and ENER themes ICT companies are not quite active. On average 20% of the SMEs are from the ICT sector.
- Also the **Service sector**, good for 24% of the participations, is very active in each of the themes (between 17 and 41%), mostly in SPA, SEC and ENV.
- With an overall participation of 6%, the **Consultancy sector** is less present.
- Finally, the **Quaternary sector** counts only for 2% of the participations, but in the HEALTH programme and in SSH, the SMEs of this sector counts for more than 6%.

Graph 16: Per Theme – overview of the sectors represented by the SME participations

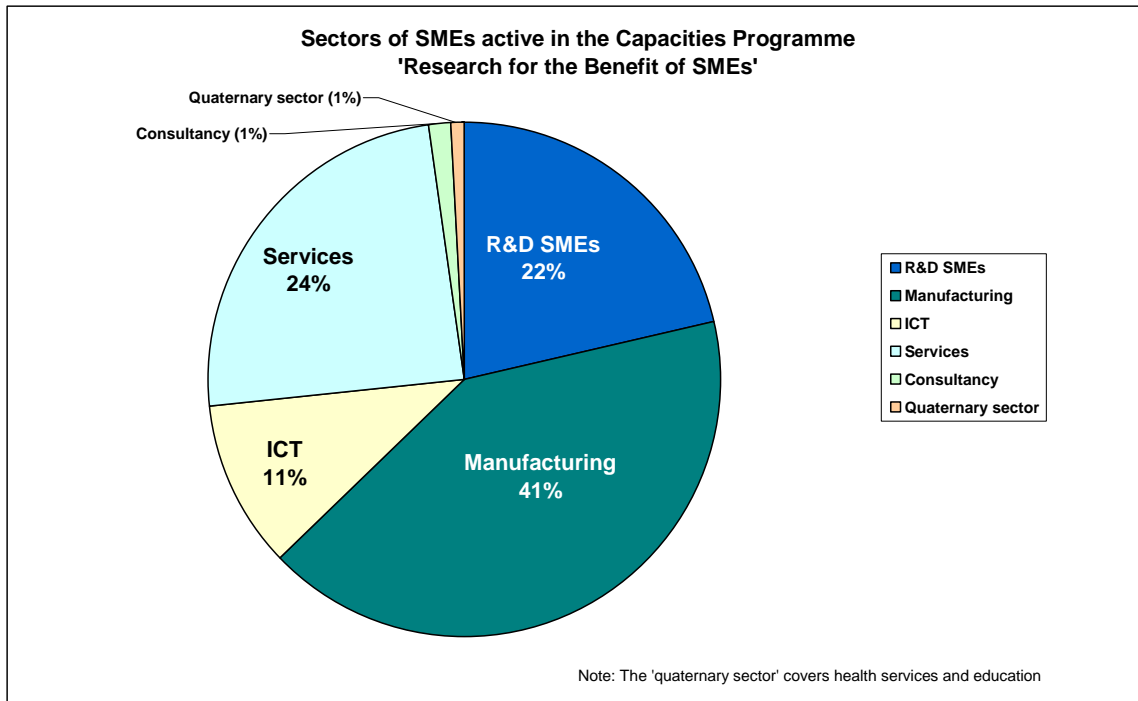

The following graph gives a similar view, looking the other way around, and shows the division of the sector participations over the ten Themes.

Graph 17: Per sector – overview of the Themes in which SMEs of the sector participate

SME activity profiles within the other Specific Programmes

Capacities Programme – Research for the benefit of SMEs

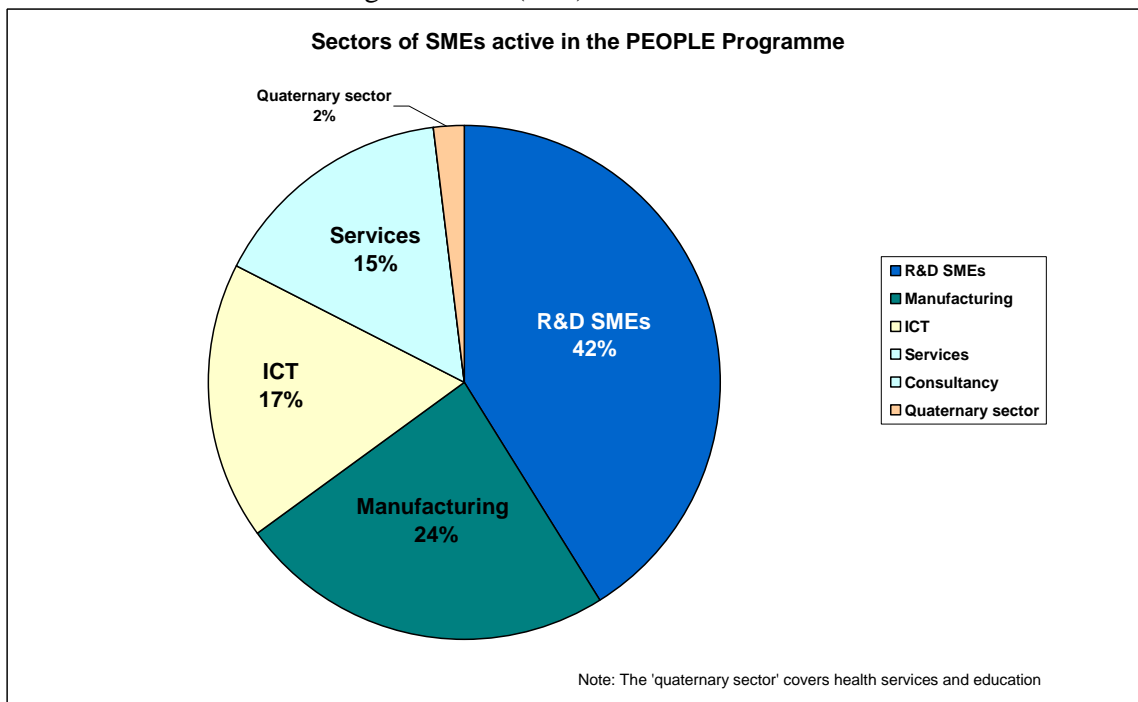

Graph 18: Sectors of SMEs represented in the Capacities Programme

People Programme

SMEs in two Marie Curie actions:

- Industry Academia Partnerships and Pathways (IAPP)
- Initial Training Networks (ITN)

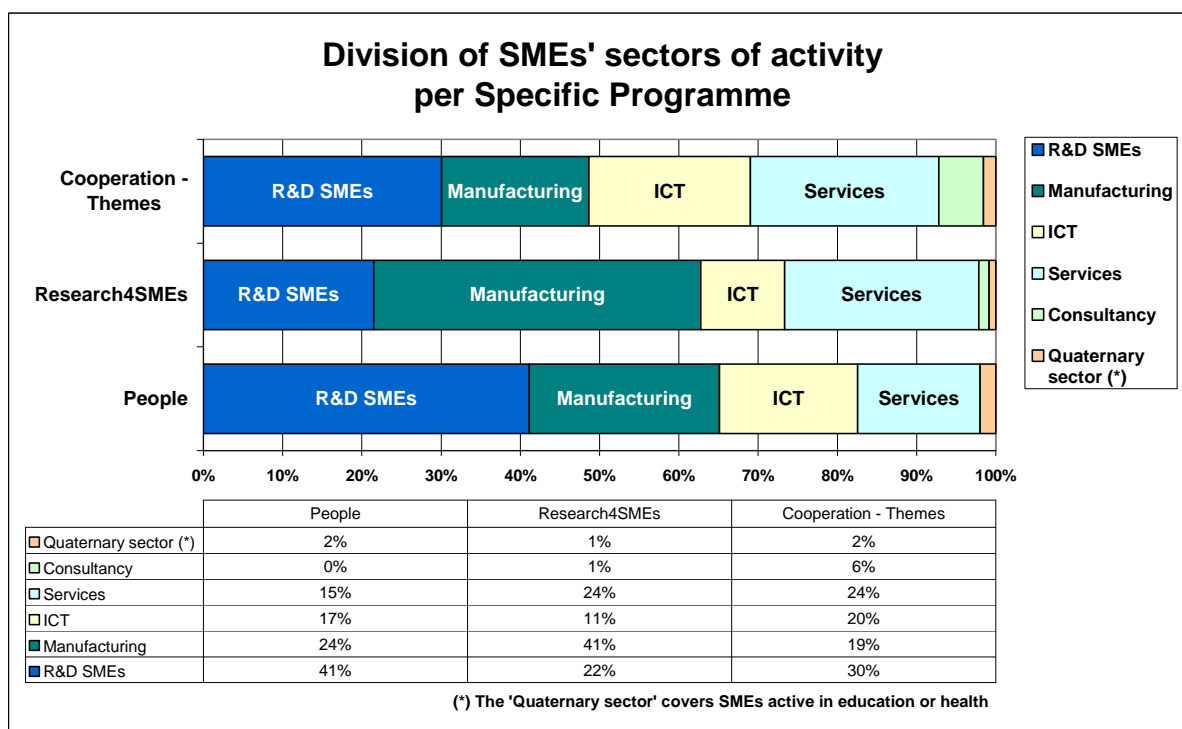

Graph 19: Sectors of SMEs represented in the People Programme

Comparison of SME activity profiles between the different Specific Programmes

An additional analysis was carried out to compare the three SME-relevant Specific Programmes. The graph below confirms that R&D SMEs are more active in the Cooperation programme than in the action 'Research for the benefit of SMEs'. The latter attracts more manufacturing companies (41% of the participations).

In the Marie Curie actions IAPP and ITN, 41% of the SMEs involved are 'R&D performing'.

Graph 20: Comparison of the representation of the six main sectors of SMEs between the different Specific Programmes

Chapter 4: Country scores versus the 15% target

The graphs in this chapter use country codes. For clarity, the country codes are listed first.

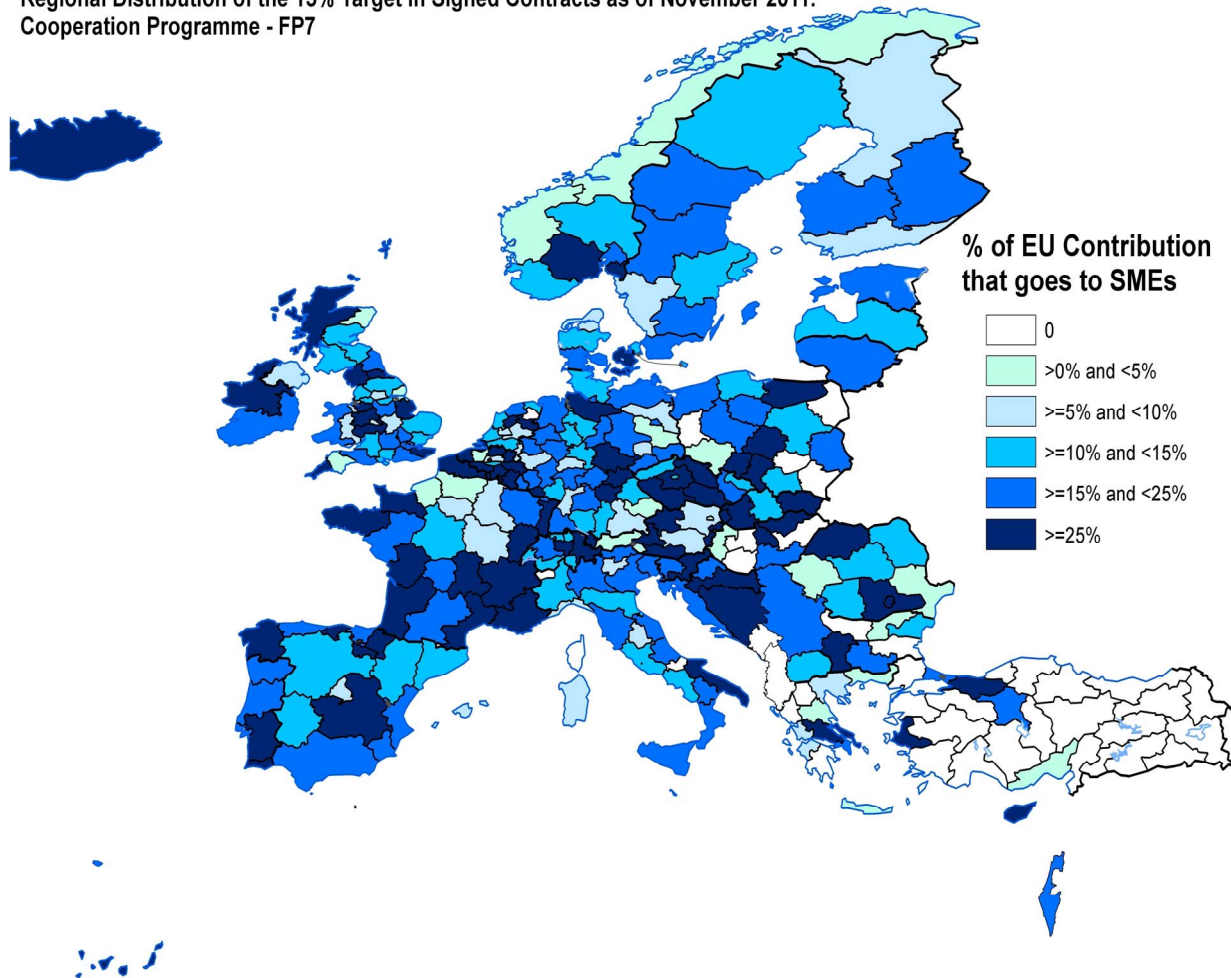

Graph 23: Themes: EU Contribution to SMEs for the Associated Countries

The 15% target in a regional map²

The SPRING 2011 release of the Report on the 'SME Participation in FP7'³ included, besides a series of regional maps on the SME participation in the Cooperation programme, tables with data on the participation per region in the Member States. This detailed analysis has not been done in this version.

In this report, the regional analysis is limited to the following map based upon the situation in November 2011, which presents EU regions in relation to the 15% target of the EU contribution going to SME beneficiaries. This map shows a wide variation in the share of SME participation over the regions, within the Member States and in the Associated Countries.

Regional Distribution of the 15% Target in Signed Contracts as of November 2011.
Cooperation Programme - FP7

Chapter 5. SME participations from Third Countries in FP7⁴

Focus on participations from outside the Member States: 10% of the SME participations are from Third Countries

This report looks briefly also into the participation of SMEs of Third Countries in FP7, e.g. the Russian Federation, the United States, India, South-Africa. All in all, there are almost 1,200 SME participations of Third Countries in FP7, which corresponds to almost 10% of all the SME participations.

SMEs in FP7: focus on participations from outside the Member States

In total, we have 1,172 SME participations from outside the EU.

The main part of the SME participations from non Member States is from Associated Countries (977), in particular from

- Switzerland (374)
- Norway (235)
- Israel (157)
- Turkey (115)

Put together per group of countries, the SME participations are divided as follows:

Table 5: Number of SME participations per group of Third Countries

Country Group Description	SME Participations
Associated Countries	977
ICPC - ACP - Africa	23

European Commission

**Eighth Progress Report on SMEs participation in FP7
2007-2011**

Luxembourg: Publications Office of the European Union

2012 — 40 pp. — 21 x 29,7 cm

How to obtain EU publications

Free publications:

- via EU Bookshop (<http://bookshop.europa.eu>);
- at the European Union's representations or delegations. You can obtain their contact details on the Internet (<http://ec.europa.eu>) or by sending a fax to +352 2929-42758.

Priced publications:

- via EU Bookshop (<http://bookshop.europa.eu>).

Priced subscriptions (e.g. annual series of the Official Journal of the European Union and reports of cases before the Court of Justice of the European Union):

- via one of the sales agents of the Publications Office of the European Union (http://publications.europa.eu/others/agents/index_en.htm).

SME Participation in FP7 (2007-2011):

SMEs receive more than 15% of EU funding for research projects.

This Eighth SME Progress Report by the Commission's DG Research & Innovation shows that the budget target of 15% for funding to Small and Medium Enterprises (SMEs) within the Cooperation programme of the Seventh Research Framework Programme (FP7) has been reached.

This 15% goal had been set by the Parliament and Council when establishing FP7. Its implementation across the Themes of the Cooperation Programme of FP7 (2007-2013) is regularly monitored by DG Research & Innovation in the form of "SME Progress Reports in FP7". This eighth report shows that during the first five years of FP7, the budget granted so far to SMEs in the Thematic priorities represents 15.3% of the Cooperation Programme budget. This equals € 2.4 billion allocated to almost 8.900 SME participations by 1 January 2012.
